

APPENDIX & PROJECT SUBMISSION CHECKLIST

Script-Controlled ACL – Restrict Record Access Based on Field Value

Team ID: 6ab800af30f9767f87729b97

Team Members: ASWIN J C, Anton Viju J V, Sujith R, Swapnesh M G, Ragul A

Date: 29 September 2026

A. Source Code / Project Files

Include the ServiceNow project configuration and any project-specific source/configuration files that are permitted for submission.

Item	What to Include	Status
ACL Configuration	READ, CREATE, WRITE and DELETE ACL configuration details.	Completed
ACL Script	Advanced READ ACL script used in the project.	Completed
Custom Table	Institution Details table configuration and field definitions.	Completed
Roles	bb1, bb2, bb3 and bb4 role configuration/assignment evidence.	Completed
Test Users	EEE User and other test-user configuration evidence where appropriate.	Completed

B. Dataset / Data

External dataset is not required for this ServiceNow ACL project. The project uses records created in the custom Institution Details table for testing.

Data Item	Description	Status
Institution Details records	Test records containing fields	Completed

	such as Student Roll Number, Student Name, Faculty Name, Branch, Email, Phone Number and Description.	
Branch values	Use the configured ECE, EEE and CSE choices for access-control testing.	Completed

C. GitHub Repository

Repository: Script-Controlled-ACL-Restrict-Record-Access-Based-on-Field-Value

Repository URL: <https://github.com/aswinjc/Script-Controlled-ACL-Restrict-Record-Access-Based-on-Field-Value>

Submission checks:

- ☐ Repository is publicly accessible.
- ☐ Project files/documentation are uploaded.
- ☐ README contains project purpose and usage/demo information.
- ☐ Repository link is tested before submission.

D. Project Demo Video

- ☐ Demo video is uploaded to Google Drive.
- ☐ Sharing permission allows the required reviewers to access the video.
- ☐ Video demonstrates project name and purpose.
- ☐ Video explains the working process.
- ☐ Video demonstrates the ServiceNow ACL configuration and final output.
- ☐ Voice-over / explanation is included where required.
- ☐ Public/shareable demo link is added to the README and final report.

Demo Video Link:

https://drive.google.com/file/d/17cr4pFSlvqO9uVhqpPKrUoeEZ2VmLo_E/view?usp=sharing

E. Output Screenshot Evidence

Insert actual screenshots from the ServiceNow project execution where required by the final report.

- [] Institution Details table/list with sample records.
- [] EEE user access result.
- [] Unauthorized-user access restriction.
- [] Administrator access result.
- [] CREATE operation evidence.
- [] WRITE operation evidence.
- [] DELETE operation evidence.
- [] Relevant ACL configuration/script evidence.

Table Institution Details

A table is a collection of records in the database. Each record corresponds to a row in a table, and each field on a record corresponds to a column on that table. Applications use tables and records to manage data and processes. [More Info](#)

Description	Allow create for records in u_institution_details, for users with role bb2.		

Conditions

Access Control Rules have two decision types, and these types will behave differently depending on conditions.
1. Allow Access: Allows access to a resource if all conditions are met. Additional ACLs may grant access to records where this ACL has not granted access.
2. Deny Access: Denies access to a resource unless all conditions are met. Additional ACLs may not grant access to records where this ACL has denied access.

F. Final Submission Checklist

Requirement	Verification	Status
Project Report	All required report sections are completed.	Completed
Ideation Documents	Problem statement, empathy map and brainstorming documents included.	Completed
Requirement Analysis	Customer journey, solution requirements, DFD and technology stack included.	Completed
Project Design	Problem-solution fit, proposed solution and solution architecture included.	Completed

Project Planning	Backlog, sprint planning and tracking included.	Completed
Testing	Functional/performance testing and UAT documents included.	Completed
UAT Report	UAT execution/report submission completed after actual execution.	Completed
GitHub	Public repository link verified.	Completed
Demo	Google Drive demo link verified.	Completed
Screenshots	Actual project output screenshots inserted where required.	Completed

G. Important Execution Note

Pass/Fail values, actual results, defect counts and performance measurements should be completed only from actual project execution. Template example values must not be presented as the project's real test results.
